

Waiting for Spring Scrap Quilt

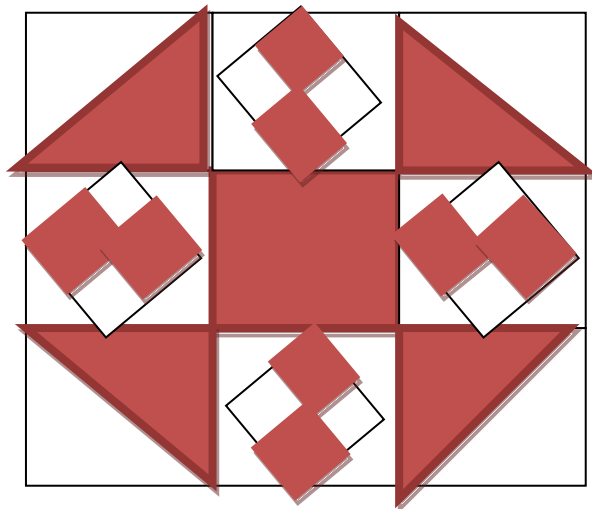

Hi!

Here is the final part for the waiting for spring scrap quilt. The only thing left is putting it all together. You will need to make 2 different blocks.

Block A

Block B

Then put the blocks into rows alternating block A and B. This will give you diagonal lines making an optical illusion come forward in your quilt. You need to make 15 rows of 11 blocks.

Row 1 will start with block A

Row 2 will start with block B

Good Luck and I hope you enjoyed making this scrap quilt!

I would love to see what you made, so please email me at: Barbara@pinkandbarbara.com with a picture!
